- Virginia is the birthplace of American BBQ, mac and cheese and a #1 food podcast!!!!
- Handsome, plump Virginia peanuts are the largest of the four peanut types grown in the United States.
- Oysters are the oldest documented food in the Commonwealth, dating back to 1607 when the first English settlers at Jamestown survived on oysters pulled from the James River.
- The Virginia Oyster industry has a rich history which reached its heyday in the 19th century, when nearly eight million bushels were harvested in one year.

DID YOU KNOW...?

- Popcorn explodes because each kernel has a perfect drop of water inside it. Your microwave quickly raises that water to the steaming point, and the pressure of the steam rips open the hull and inflates the starchy mush inside.
- Charles Feltman, a German-American Baker, invented the hot dog at Coney Island around 1867.
- Ripe cranberries will bounce like rubber balls.
- The average strawberry has about 200 seeds on it. Each seed that grows into a plant can produce about 24 large strawberries every year.
