- Chicken and waffles, the modern version, is credited to the Wells Supper Club in Harlem.
- The apple was adopted as the State Fruit of New York in 1976. New York is the second largest apple producing state in the United States.

DID YOU KNOW...?

- Popcorn explodes because each kernel has a perfect drop of water inside it. Your microwave quickly raises that water to the steaming point, and the pressure of the steam rips open the hull and inflates the starchy mush inside.
- Charles Feltman, a German-American Baker, invented the hot dog at Coney Island around 1867.
- Ripe cranberries will bounce like rubber balls.
- The average strawberry has about 200 seeds on it. Each seed that grows into a plant can produce about 24 large strawberries every year.
